Join us to Celebrate 70 years of Psychology in Louisiana
Evolutionary Psychology & Ethics

Featuring the legendary Robert Trivers, PhD, evolutionary biologist who explained the scientific foundations of ethical behaviors, reciprocal altruism and self-deception.

Time Magazine named him one of the top 100 scientists and thinkers of the 20th Century. Steven Pinker has said, “I consider Trivers one of the great thinkers in the history of Western thought. It would not be too much of an exaggeration to say that he has provided a scientific explanation for the human condition…”

Presenters and Discussants include: Michael Chafetz, PhD, ABPP; Michael Cunningham, PhD; Julie Nelson, PhD; Denise Newman, PhD; Jack Palmer, PhD; Matthew Rossano, PhD; and Moderator: Courtland Chaney, PhD.

AFTERNOON SESSION – APPLICATIONS

2:30 PM – 4:30 PM – “Identifying and Remedying Ethical Stumbling Blocks in Professional Practice”

In this session, a panel of experts representing various practice areas will discuss key concepts and tools for making better and more informed ethical choices. Presenters will cover distortions, biases, and self-deceptions that can create ethical challenges in psychotherapy and in delivering professional services. Also discussed will be how racial differences can lead to biased decisions when left unaddressed. The impact on individual ethical decision-making that occurs through group dynamics and group membership will be examined. The benefits of supernatural thinking for moral behavior is included. An active Q&A session with audience participation is planned.
